WORK EXPERIENCE

Caretta Yazılım ve Danışmanlık A.Ş

Mid Frontend Developer   May 2023 - Present

I have experience working on different projects from start to finish, including code refactoring on old projects and using new versions of Angular. I am skilled in software development, with a strong background in Angular, and have a proven track record of successfully completing projects on time and within budget. In my roles of these projects, I have worked closely with other members of the team to develop and implement new features and functionality, as well as maintain and improve existing code.

Technologies: Angular, Typescript, Tailwind, SCSS, Azure, Jira
Website: https://www.caretta.net/en/

Kerzz Pos

Junior Frontend Developer   Sep 2022 - May 2023

In my previous roles, I had the opportunity to work on a wide range of software projects. This included working on restaurant management systems, post software, and a food order application called ORWI. Additionally, I have experience working on various dashboard portals. One of my main responsibilities was code refactoring on old projects, adding new modules, and developing the products further.

Technologies: Angular, Typescript, Ionic, Tailwind, SCSS, Jira

Boferp

Junior Frontend Developer   April 2022 - August 2023

Worked on a project which is able to create no-code e-commerce websites. During my time on this project, I was responsible for developing the front-end interface using Javascript. My tasks included creating a user-friendly interface, ensuring the website was accessible to all users. I also took on the role of project presenter in presentations for possible collaborations

Technologies: Jquery, Javascript, Bootstrap, CSS
