GOAL

Gaining expertise level experience in my area of interest and expertise and become one of the mentioned people in the industry.

EXPERIENCED TOOLS

Typscript || Javascript || Angular || React.js || Next.js || NODE.JS

HTML || CSS || SCSS || Tailwind || Bootstrap

Github || RestAPI || Jira || Npm & Yarn

EDUCATION

2012-2019	**Firat University, Mechatronics Engineering Bachelor Degree**
2022-Present	**Anadolu University, Computer Programming Associate Degree**

WORK EXPERIENCE

❖ **SOFTWARE DEVELOPER - KERZZ POS**   09.2022 – Present

I work on UI/UX developments and service functions in POS softwares that manages purchasing processes in pos automation systems, a food order application (like Yemeksepeti) called Orwi, various dashboard portal projects.

Used Skills : Typescript - Angular - Ionic - SCSS – Tailwind
Website   : https://www.kerzzpos.com/tr

❖ **FRONTEND DEVELOPER - HSP Software**   04.2022 – 09.2022
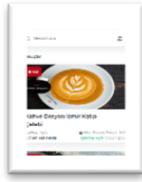

I worked in a project that users be able to create e-commerce website by selection without coding.

Used Skills : Javascript – Jquery – CSS – Bootstrap
Website : https://boferp.com/tr/anasayfa

COURSES ATTENDED

REACT.JS	https://www.udemy.com/share/react.js
NEXT.JS	https://www.udemy.com/share/next.js
ANGULAR	https://www.udemy.com/share/angular
MEAN STACK	https://www.udemy.com/share/meanstack

PROJECTS

A study that lists restaurants by location, taken from the API that I have done with Angular. There is also a version of the same work done with Jquery.

https://ephemeral-cascaron-36b4a5.netlify.app/

A blackjack game with React.js. I've used Context Reducer and Effect hooks and some libraries like CLSX and React-icons. For style I've used mostly Tailwind and sometimes pure CSS.
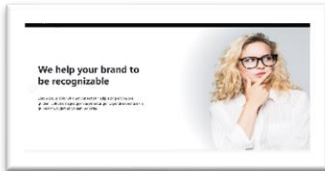

https://glowing-smakager-fc8da8.netlify.app/

A food order app which has a chart. I'have used Context Reducer and Hooks for react training. For styling it includes CSS codes.

A TODO application that can add, remove, complete and edit using the state management method I made by deploying React.js useReducer with Context

https://mellifluous-salamander-9f3b9e.netlify.app/

The website that come from as a template designed at ADOBE XD. I coded this project by using JQUERY
